

NEWS OF ALEXANDRIA

Nine-year-old Boy Admits Robbing Store Twice.

CHURCH CONTRACT AWARDED

Presbyterians Will Spend \$21,000 for Remodeling of St. George's Mount Vernon Chapter, Royal Arch Masons, Elects Marshall L. Dinwiddie High Priest of Order.

F. Clinton Knight, 625 King street, Alexandria, Va., is authorized agent and carrier for The Washington Herald. The Herald will be delivered daily and Sunday to any address in Alexandria for 10 cents a month.

WASHINGTON HERALD BUREAU, 625 King Street.

Alexandria, Va., Sept. 3.—Albert Glover, nine years old, was arrested to-night by Policeman Knight on suspicion of theft. He had in his possession a lady's skirt, which his relatives claim he took from home when he left this morning.

The police say Glover admitted that he entered the store of Oscar F. Carter, dealer in chinaware on King street, on two occasions and stole a few small articles, \$6.62 in cash, and seventy-five 2-cent stamps from the safe. Mr. Carter offered a reward of \$25 for the arrest of the thief. Glover was turned over to his people. He will be given a hearing in the Police Court Monday.

Bids for the remodeling of the Second Presbyterian Church here were opened yesterday afternoon at the office of Architect Palmer, in Washington, and the contract was awarded to Messrs. Knight and Rogers, this city. Their bid was \$21,318. The highest bid received was \$23,432. Work of improving the structure will be begun within a comparatively short time. The plans practically provide for the rebuilding of the edifice and adding another story to the structure. The seating capacity will be considerably increased.

Mount Vernon Chapter, No. 34, Royal Arch Masons, has elected the following officers: Marshall L. Dinwiddie, high priest; Frank W. Latham, king; William B. Davis, scribe; William Lewis Allen, treasurer; and Alfred G. Usher, secretary. Appointments made by the high priest are as follows: Claude W. Fletcher, captain of the host; C. Page Waller, Jr., principal journeyman; Walter C. Davis, royal arch captain; George W. Zachary, W. H. Bontz, Jr., and C. H. Callahan, masters of veil; L. Ruben, steward; P. C. Timberman, tiler; Rev. J. R. Sevier, chaplain.

Following the election, officers were installed by J. E. Alexander, past grand high priest. W. H. Charles, retiring high priest, was given a jewel in recognition of his services.

A charter has been granted to the Rural Homes Development Company, Incorporated, this city, with a maximum capital stock of \$50,000 and a minimum of \$5,000. The object and purposes are a general real estate and development business. The officers are: Llewellyn Jordan, president; Washington, W. D. Mackenzie, vice president; Washington, Scott Nesbit, treasurer; Warrenton, Va.; H. C. Allen, secretary; Washington, H. H. Hutchison, Herndon, Va.; P. L. Dunlap, Takoma Park, Md.; R. D. Chase, Chevy Chase, Md.

The funeral of John T. Johnson, who died Thursday night, took place at 4 o'clock this afternoon from his home, 613 North Washington street. The services were conducted by Rev. P. P. Phillips, rector of St. Paul's Episcopal Church, and Rev. J. R. Sevier, pastor of the Second Presbyterian Church. Burial was in the Methodist Protestant Cemetery. The pallbearers were Albert A. Payson, W. H. Sweeney, W. A. Smoot, Jr., P. McK. Baldwin, this city; George F. Fitch, Newport News, Va., and Hood Weadon, Bristow, Va.

Charles H. Calahan, Henry K. Field, and Robert S. Barrett returned to-day from Baltimore, where they went in the interest of the proposed Masonic temple to Washington. They conferred with Gen. J. T. Shryock, grand master of Masons of Maryland, who promised to aid in furthering the project.

In Police Court this morning Lake Fox, a negro, was fined \$50 on a charge of carrying a pistol. Fox said he had just purchased the gun at a pawn shop, although it was loaded.

The pulpit at the Methodist Episcopal Church, South, to-morrow will be filled by Rev. J. H. Duley. Rev. Ernest C. McCuen will conduct services at the First Baptist Church.

A marriage license was issued this afternoon to Miss Olive P. Wetzel and Thomas F. Appell, both of Washington.

A fine of \$10 was imposed on William Smith, a negro, in the Police Court this morning on a charge of obtaining goods under false pretenses from C. J. W. Sum-

SEEKS DEATH IN CELL

FILIPINO REBEL CAUGHT.

Former Gov. Mandac and His Aide Imprisoned.

Manila, Sept. 3.—The uprising in Nueva Vizcaya led by by Simplicio Mandac, posed governor of Ilocos Norte, came to an inglorious end to-day, when Mandac fell into the hands of the constabulary. He had been seized by the people of the province, among whom he had sought to stir up trouble.

A few of Mandac's right-hand men were also arrested, and his other followers dispersed.

DAY OF COALLESS WAR SHIPS SEEN

Inventor Declares Internal Combustion Solves It.

Paris, Sept. 3.—That every coal-burning battle ship will go out of existence within a decade is Charles R. Flint's settled conviction, based on his belief that the problem of building internal combustion engines suitable to battle ships has been solved. Mr. Flint, who has been studying the question, says:

"The question was solved years ago for small units, suitable to automobiles and motor boats, but many difficulties prevented its extension to large units, not the least being the heat evolved, with the consequent effects of expansion and contraction. I am convinced that these have now been overcome. In England and Germany the results will be revolutionary. An internal combustion power plant weighing one-third as much as a steam plant will produce three times the power for the same weight of fuel. The weight and space thus saved can be utilized for heavier ordnance and greater armor protection for the ships. It means also higher speed and a larger radius of action. Coal-burning stations will lose their importance."

Mr. Flint has no doubt of the truth of the statement in a Portsmouth, England, paper that the admiralty is to build battle ships which will be driven by motors and will have internal combustion engines.

CHARLES G. DAWES OPTIMISTIC

Former Comptroller of Currency Discusses Outlook.

Says West Sees Brighter Future Than East Because Interested in Crops Rather Than Bicker.

New York, Sept. 3.—Charles G. Dawes, Comptroller of the Currency under President McKinley, and now president of the Central Trust Company of Illinois, has been in New York for a few days, and he said things on the financial horizon hereabouts had taken on a more rosy tinge than they were when he was here some six weeks ago.

"I find the East is not quite so optimistic as to the business outlook as the West," said Mr. Dawes, who was at the Waldorf.

"In the West we are more interested in the crop reports than in the stock ticker, and, perhaps, that explains it. But with good feeling in the West I find a better feeling here than on my last visit. The currency situation, as related to crop moving, is entirely adequate and business as a whole is on a stable basis.

"In a republic where we have constant politics we must expect them to influence the trend of business somewhat, but my observation is that their real effect is great as the immediate estimates put upon them by the speculators, as evidenced by the stock market.

"I do not mean to say," added Mr. Dawes, "that radical political agitation, such as is going on at the present, is not a disturbing influence, but I think the East overrates its business importance."

Athletes of Ancient Greece.

Some interesting comparisons may be drawn between ancient and modern athletes. The athletes of ancient Greece, for example, if they should appear to view to-day, would not be taken for a football team, says the Indianapolis Star.

The old-time man of muscle wore his hair cropped, a distinguishing feature in a land of long hair. Trainers for the games led a very careful life. They were under orders for a very rigid diet, which became especially severe just before the contest.

Their bill of fare consisted of fresh cheese, dried figs, and wheaten porridge. A little later in the era meat was allowed, with preference for beef and pork. Bread was not allowed with meat, and sweets not at all.

At one time a strange custom of diet came into vogue. Every day at the conclusion of practice the athletes were obliged to consume enormous quantities of food, which was digested in a long-continued sleep. The amount was gradually increased until huge meals of meat were taken. This diet produced a corpulence which was of advantage in wrestling, but injurious for other sports.

Boiled Frosting.

Pamela Merritt Farmer, in Woman's Home Companion.

Put one cupful of sugar and one-third of a cupful of boiling water in a saucepan. Bring to the boiling point, and let boil, with little or no stirring, until sirup will spin a thread when dropped from the tip of a spoon or tines of a silver fork. Pour sirup very gradually, while beating constantly, onto the beaten white of one egg and continue the beating until mixture is of the right consistency to spread. Flavor with one teaspoonful of vanilla and pour over cake, spreading evenly with back of spoon. Crease as soon as firm. If not beaten long enough, this frosting will run; if beaten too long, it will not be smooth. Often in the hands of the inexperienced cook this frosting is more successfully made with the whites of two eggs. Boiled frosting may be flavored in a variety of ways—with one-half tablespoonful of lemon juice, one-half tablespoonful of almond extract, or one teaspoonful of vanilla and extract. Chopped filberts, walnuts, pecans, shredded coconut, figs, dates, or raisins (about two-thirds of a cupful) may be added.

HUGS PHOTO TO HIS HEART

Albert S. Rinker, Son of Mrs. M. E. Rinker, of 1340 Riggs Avenue, Slashes Throat in Pittsburgh Prison, but Physicians Say His Recovery Is Probable.

Special to The Washington Herald.

Pittsburgh, Pa., Sept. 3.—The photograph which Albert S. Rinker held to his heart when he slashed his throat in a Pittsburgh police station early this morning is that of Mrs. Frank Brown, of Bridge-water, Pa., a woman between whom and her husband Rinker's infatuation caused a temporary separation last week. On Thursday night of last week the husband, coming home late, found his wife missing and later found her in company with Rinker in a neighbor's house. A separation followed, the wife remaining at the home of a friend. Two days later Rinker left and came to Pittsburgh.

Reconciliation Is Affected. Friends of the husband and wife took the matter up and finally brought about a reconciliation, and the couple are now living together. The infatuation of Rinker for Mrs. Brown in Bridge-water was well known and was much talked about.

It was also known that he carried a photograph of her, as he had shown it on several occasions. Rinker was popular. He went to Bridge-water in March, 1908. During Rinker's stay he boarded with Frank Brown, employed as motor-man on the traction lines. During Rinker's stay it is averred that he led a reckless career, and was a favorite with a number of women. He was thirty-five years old, and was born at Mount Jackson, Va.

His mother, Mrs. M. E. Rinker, resides at 1340 Riggs avenue, Washington, D. C., while a brother, J. W. Rinker, is located at Ellenboro, W. Va.

Recovery Is Probable.

At the West Penn Hospital to-night, it was announced that Rinker's chances for recovery are good. He absolutely refused to say what prompted him to attempt his life, and would not discuss the act.

Mrs. Rinker arrived in Pittsburgh late to-night, accompanied by her daughter. They went direct to the West Penn Hospital and were with Rinker up to a late hour to-night.

MORE STRIFE FOR AUSTRIA

Bosnian Annexation Question Forecasts New Clash.

German and Italian Foreign Ministers Visit Baron von Aehrenthal, Austrian Minister in Russia.

St. Petersburg, Sept. 3.—There is a growing expectation here that another collision with Austria is approaching. The officials of the state department believe that Baron von Aehrenthal, the Austrian foreign minister, intends to continue to advance along the road he entered two years ago by the Bosnian annexation.

His agents at Constantinople are conducting an energetic anti-Russian agitation, and as the Russian government is not concealing its complete distrust of the Young Turks, the grouping of the powers is bringing Austria and Turkey together somewhat on the terms that Baron von Aehrenthal believed he had won from Abdul Hamid when the latter sanctioned an Austrian survey of the Macedonian Railway on condition that Austria and Germany frustrated any outside interference in Turkey's administration of Macedonia.

The Slav societies of Russia insist that they must fight rather than see the Bulgarians, with whom Russia now has a military convention, forced in an effort to unite with their compatriots living in Turkey's European province.

Baron von Aehrenthal, while at Marienbad, had visits from the new German and Italian foreign ministers. He has also been conversing much with members of the Turkish cabinet, who have been his guests.

THE PARSON'S CHECKS.

From the Chicago News.

According to George Cary Eggleston, Virginians of antebellum days showed great indifference in money matters. Money in the form of coin was rarely seen. The planters were in the habit of writing checks on a slip of foolscap, instructing the bank to "please" pay the amount specified. Eggleston says:

"This custom of paying by check so strongly commended itself to a certain unworried person of my time that he resorted to it on one occasion in entire ignorance and innocence of the necessity of having a bank deposit as a preliminary to the drawing of checks. He went to Richmond and bought a year's supplies for his little place—it was too small to be called a plantation—and for each purchase he drew a particularly polite check.

"When the banks threw these out on the ground that their author had no account the poor old parson found the situation a difficult one to understand. He had thought that the very purpose of a bank's being was to cash checks for persons who happened to be short of money. 'Wh, if I had the money in the bank,' he explained, 'I shouldn't have written the checks at all; I should have got the money and paid the bills.'"

"Fortunately the matter came to the knowledge of a well-to-do and generous planter who knew Parson J. and who happened to be in Richmond at the time. His indorsement made the checks good and saved the unworried old parson a deal of trouble."

Bride's Cake and Frosting.

Pamela Merritt Farmer, in Woman's Home Companion.

For bride's cake cream one cupful of butter and add gradually, while beating constantly, two cupfuls of sugar. Mix and sift two cupfuls of flour, one cupful of cornstarch, and four and one-half teaspoonfuls of baking powder. Add to first mixture alternately with one cupful of milk; then add one-half teaspoonful of almond extract and the whites of five eggs beaten until stiff. Turn into two buttered and floured cake pans and bake in a moderate oven. Cover with boiled frosting flavored with almond extract.
